

Storage Sheds | Garages | Cabins | Pool Houses

SOLUTIONS TO **ENHANCE** YOUR OUTDOOR LIVING

Welcome

TO SUSQUEHANNA OUTDOORS

Since 2005, Susquehanna Outdoors has provided quality sheds and outdoor structures throughout central Pennsylvania. From simple storage sheds to larger garages, cabins, pool houses, carports, pet structures, and more, we build solutions designed around your needs.

IN BUSINESS FOR OVER 20 YEARS

In 2025 we celebrated our 20th year anniversary! Founded in 2005, Susquehanna Outdoors is a family business, owned and operated by three brothers David, Elam, and Ervin Smucker. Our original manufacturing shop was located on our family farm in Herndon, PA. By 2016 we had outgrown the trusty old shop and relocated our manufacturing facility to a new location in Northumberland County, PA. We now have 2 sales locations, one at 2372 Continental Blvd. Danville, PA, and one at 2005 Point Township Drive, Northumberland, PA. We have since expanded our product lines to include the many products we sell today.

WHY CHOOSE US?

EXPERIENCE

Craftsmanship and expertise you can trust since 2005.

ASSURANCE

Every shed includes our 8-Year Top-to-Bottom Warranty and satisfaction guarantee.

FLEXIBILITY

Not assembly-line built. Customize your structure to fit your needs.

QUALITY

Premium features come standard – not as costly upgrades.

OUR GOALS

We strive to serve every customer with integrity and respect while providing exceptional service and products that will be a blessing to our customers for many years. Above all, we seek to honor God, who has saved us through his Son, Jesus Christ.

FREQUENTLY ASKED QUESTIONS

HOW DO I PURCHASE A SHED?

Purchase a display model or place a new order: We have over 50 buildings in stock and ready to deliver, or you can order a building to be built in the style and colors that you like with the features that best fit your needs. Our display models are always open and you're welcome to browse our sales lot anytime including after hours.

Where to order: You can finalize your purchase in person at our office, or by phone or email. We will be happy to walk you through the many options we have on our lot, or show you pictures from the 1000's of buildings we've built in the past. We can also give you an itemized quote while you wait or email one to you.

DO I NEED A BUILDING PERMIT?

That depends on the building size and your location, but the answer is usually "yes." It is your responsibility to contact your township regarding zoning or building permits, and ask about size or height restrictions and property line setbacks. If a permit is required, we can provide the drawings and information needed to apply for a permit, and our contractor license number or insurance information if needed.

WHAT ARE THE PAYMENT TERMS & OPTIONS?

Pay in full on delivery: 35% down payment to start the building process; the remaining balance is due on delivery. You can give the delivery driver a check or call the office with your credit card number. We accept check, cash, or credit card.

Financing: We offer several financing options, some with \$0 down. Credit check is required.

Rent-To-Own: Rent-to-own does not require a credit check. Money due at signing will be approximately 10% of the purchase price.

Delivery Time: If you choose one of our in stock models, we can deliver as soon as 1 or 2 weeks. If you place a new order there is a 6 to 10 week time period from the time you order until the delivery date, depending on the season and the building style. Onsite builds and cabins have a longer lead time.

WHAT ARE YOU LOOKING FOR?

Site Prep & Delivery	4-5
Colonials & Two-Story Barns	6-13
Storage Sheds	14-27
Potting & Garden Sheds	28-33
Studios	34
Pool Houses	35-39
Cabins	40-43
Garages	44-47
Metal Carports	48-49
Playhouses	50
Coops, Kennels & Horse Barns	51-57
Hunting Blinds	58
Cupolas & Weathervanes	59
Options & Features	60-63

Susquehanna Outdoors has an **8 Year Top to Bottom Warranty** on all storage sheds, pool houses, cabins and garages. The warranty covers structural areas including the floor, walls, roof, doors and windows – we will repair or replace any part due to any defects in materials or workmanship for that period. Warranty does not apply to lack of care or abuse. With proper maintenance and care you can expect to enjoy your structure for many years to come. Warranty is non-transferable.

Satisfaction guaranteed! If your shed arrives and is not what you expected, we'll take it back and build you a new one or refund your money!

SITE PREPARATION

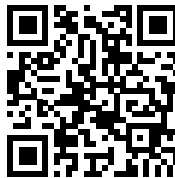

WE DO SITE PREP

A properly prepared site helps keep your shed level, stable and working properly for years to come. We offer complete site preparation and shed removal, with the equipment and experience to handle everything from a basic stone pad to more challenging sloped sites.

PREPARING YOUR PAD

We recommend a level pad with 3 to 4 inches of crushed stone extending 12 inches beyond the shed on all sides. For example, a 10' x 16' shed requires a 12' x 18' pad. Pressure-treated borders can be added to contain the stone and create a finished edge for easy trimming and landscaping.

IMPORTANT NOTE: Shed must be installed on a properly prepared stone or concrete pad to maintain warranty coverage. Putting your shed on blocks or uneven ground will void your warranty.

Learn more about
site preparation

Shed Pad with Gravel, No Borders

Shed Pad with Borders, on a Level Site

GOT A SLOPED YARD?

No problem. We can use pressure-treated beams to create a retaining wall and provide a level foundation – even on challenging sites.

Shed Pad with Borders, Installed on 10" Slope

Shed Pad with Borders as Retaining Wall

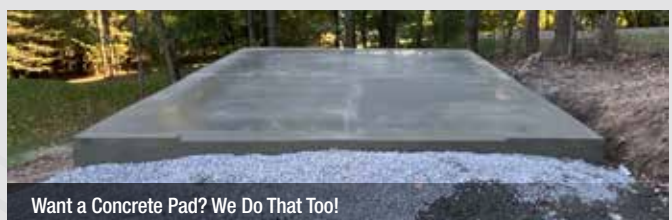

Shed Pad with Borders installed on 24" slope

Shed Pad with Borders, Installed on 48" Slope

Shed Pad with Borders Off Edge of Pavement

Want a Concrete Pad? We Do That Too!

DELIVERY

We deliver throughout Pennsylvania and surrounding states using experienced professional shed haulers. Delivery cost varies by distance and building size.

ARE BUILDINGS DELIVERED ASSEMBLED?

Most sheds arrive fully assembled and ready to use. When necessary, we can build on site. Colonial and Two-Story Barns, for instance, are delivered partially assembled and completed at your location.

CAN WE ACCESS YOUR SITE?

Most deliveries use a four-wheel-drive pickup and approximately 20' trailer. Plan for clearance at least 2' wider than your building and approximately 14' high. If truck access isn't possible, we may be able to use our smaller "Mule" equipment. Free site checks are available when needed.

DELIVERY ACCESS IS YOUR RESPONSIBILITY

Before delivery, please remove branches, fences or other obstacles and obtain permission if we need to cross neighboring property. Soft yards and fields may be damaged by heavy delivery equipment. We will only deliver with your permission, and Susquehanna Outdoors and the delivery company are not responsible for property damage due to weather or inadequate access to your site.

Most deliveries are done by 4WD pickup truck

Trailer needs to be able to back onto the pad

installation

Trailer tilts and slides the shed off the back

Upgrade YOUR SHED!

Out with the old. In with the new. We can remove and dispose of your old shed, prepare the site and deliver your new structure – all in one project.

THE COLONIAL BARN

The **Colonial Barn** is our most popular design; it adds a touch of New England style to your backyard while providing lots of storage space. The Colonial Barns are partially built at our shop, then delivered to your home and the roof is installed on site after delivery. With standard 10" overhangs, 7' – 9" walls, and a steep roof pitch, the Colonial Barn is so much more than just a "shed". Sizes available up to 16' x 40', but larger sizes can be built on site with a concrete floor.

THE COLONIAL BARN WITH LEAN-TO PORCH

One of the most popular features to add to our Colonial Barns is the lean-to porch, it's what makes this style so versatile, add a lean-to for additional storage, a backyard patio or shaded area, turn it into a pool house, and more! The lean-to is available with standard lumber, or as a Timberframe porch which includes rough sawn Hemlock posts, beams and knotty pine roof decking.

THE TWO-STORY COLONIAL BARN

Need more storage? **The Colonial Barn** is also available with a full 2nd floor; add a dormer to open up the 2nd floor even more. Two-story barns are popular as a cabin, workshop, or as a garage with additional storage space on the 2nd floor. This is a true two-story with over 8' of clearance in the center of the 2nd floor.

THE CAPE COD

The **Cape Cod** is one of our best sellers and you can see why. With a simple design and a classic look this sturdy shed will last for years to come and look great in your backyard or garden. Spruce it up by adding windows in the doors or a cupola, and don't forget the ramp!

Most shed styles can be upgraded to a garage, but the Cape Cod is our most popular single car garage style.

THE COLONIAL CABIN

Check out the spacious and beautiful design of the **Colonial Cabin**! This model is partially built at our shop, then delivered to your site and the roof is assembled on site. It comes with the same interior features as our Greenbriar cabin and is also popular as an unfinished model if you prefer to finish out the interior yourself. The steep roof design allows for a spacious loft or a full 2nd floor if you go with the two-story Colonial.

*We had an exceptional experience with **Susquehanna Outdoors** on our garage project. From start to finish, they did exactly what they said they would do. The project started on the date promised and was completed right on schedule. The workmanship was excellent, and the quality of the work really shows. We couldn't be happier with our finished garage and would highly recommend **Susquehanna Outdoors** to anyone looking for quality work, reliability, and great communication. They truly exceeded our expectations!*
